Career Objective

An enthusiastic and motivated university student with a passion for technology and coding, seeking to build a career in the tech industry. I aim to leverage my education and skills in a dynamic environment, focusing on emerging technological advancements and innovations.

Education Background

2022 - 2025: St. Paul's University

Bachelor's Degree in Computer Science

2017 -2020: Malindi High School

Kenya Certificate of Secondary Education (KCSE)

2008 -2016: Mtopanga Primary School

Kenya Certificate of Primary Education (KCPE)

Skills

- Proficient in HTML, CSS, JavaScript, and MySQL

- Knowledgeable in web design, graphics design, and digital marketing

- Experience with CSS and JavaScript for web animations and interactions.

- Familiar with Bootstrap for mobile responsiveness

- Basic knowledge in user authentication and payment integration systems.

Work Experience

Currently seeking opportunities

No formal work experience yet, but actively engaged in personal projects and learning initiatives.

Hobbies and Interests

- Coding and exploring new technologies

- Watching football and movies

- Traveling and exploring new cultures

- Listening to music

Expectations in My Career

I aim to grow my career in alignment with emerging technological advancements such as AI, cloud computing, cybersecurity, and mobile applications development. My focus is on continuously adapting and expanding my skillset to contribute to cutting-edge innovations.
